Institutional Publication Metrics for Computer Science Prospective students, parents, faculty, and University administrators use rankings to make decisions. This tool seeks to inform the process by creating better quantitative metrics on publications. These metrics are intrinsically incomplete because they should be combined with qualitative expert opinion and other metrics, such as area citation practices, faculty size, awards, student graduation rates, and PhD placement. It is a work in progress. To start, you must select a year range, discipline category(s), venue weightings, and venue list, and then press 'Go'. Each time you make a new selection, you must press 'Go' again to update the institutional metrics. See our quick start guide and FAQ on how to use the tool. more Year of publication  $a = 0.3 \quad 0.0$ 1.0 Show 50 \$ entries Year Combined =  $(Measured+\epsilon)^{0.7} \times (Predicted+\epsilon)^{0.3}$ Predicted [2016 2018] [2007 Institution Measured 2015] Combined v Rank Measured Predicted \* all Category Select/Deselect All 227574 89688 1 Microsoft 10213 ALGORITHMS ARCHITECTURE ARTIFICIAL INTELLIGENCE **BIOINFORMATICS** CIRCUITS 2 Carnegie Mellon University 135008 11558 64583 DATABASES CRYPTOGRAPHY CS EDUCATION DATA MINING DESIGN AUTOMATION 3 Stanford University 128708 7390 54616 DISTRIBUTED SYSTEMS EMBEDDED & REAL TIME HIGH PERFORMANCE COMPUTING **HUMAN COMPUTER INTERACTION** Massachusetts Institute of 4 109012 8964 51521 Technology INFORMATION RETRIEVAL MACHINE LEARNING MOBILE MULTIMEDIA NATURAL LANGUAGE PROCESSING NETWORKS OPERATING SYSTEMS University of California, 5 115980 6001 47702 Berkeley PARALLEL COMPUTING PERFORMANCE ANALYSIS PROGRAMMING LANGUAGES ROBOTICS SECURITY SOFTWARE ENGINEERING SOFTWARE VERIFICATION SYSTEMS THEORY 6 Google 101888 6230 44059 VERIFICATION VISION WEB TECHNOLOGIES University of Illinois at 7 5437 38304 88435 Urbana-Champaign Venue Weight Geo Mean **IBM** 90743 4841 37666 8 All \$ Select Venue Type 64288 5278 30369 University of Washington 9 **Venue List** Georgia Institute of ▲ Type ♦ Fullname Abbr.
